

## **DISCLAIMER**

The attention of the Federal University of Technology Owerri has been drawn to a spurious circulation on social media purporting that FUTO has ceded some portions of its land.

The Management of FUTO hereby informs the public that the University has not ceded any inch of its land under any guise to any individual or group as purported in the circulation.

The news of purported cession of FUTO's land is, therefore, fake and baseless as it is the handiwork of unscrupulous land grabbers and mischievous rumour mongers who are out to dupe unsuspecting members of the public. The public is urged to disregard the unfounded circulation and beware of scammers.

For the avoidance of doubt, members of the public are advised to always conduct a search at the Imo State Ministry of Lands before buying any land within the vicinity of FUTO's land or contact the University Registrar for clarification and advice.
